SUPPLEMENTARY INFORMATION: Section 123 of the FAA Reauthorization Act of 2018 (Pub. L. 115-254) required FAA to publish in the **Federal Register** a final policy amendment consistent with the notice published in the **Federal Register** on May 3, 2016 (81 FR 26611). On January 12, 2021, FAA issued a final policy amendment on the eligibility of on-airport rail access projects.

This PFC update amends FAA policy previously published in 2004, *Notice of Policy Regarding Eligibility of Airport Ground Access Transportation Projects for Funding Under the Passenger Facility Charge Program* (69 FR 6366) (the 2004 Policy), to make rail lines that do not exclusively serve the airport PFC eligible, and provides several methodologies for calculating the PFC-eligible costs. The FAA will apply the 2004 Policy to all other ground access projects using PFC funds. FAA has posted PFC Update 75-21: Eligibility of on-airport rail access projects on the FAA Office of Airports website: https://www.faa.gov/airports/pfc/pfc_updates/.

Issued in Washington, DC, on August 25, 2021.

Petition for Exemption

Docket No.: FAA-2021-0489.

Petitioner: San Antonio Air Charter.

Sections of 14 CFR Affected:

61.113(a); 91.7(a); 91.319(a); 135.25(a); 135.93; 135.143(a) and (b); and 135.115.

Description of Relief Sought: San Antonio Air Charter (SAAC) petitions

for an exemption from Title 14 Code of Federal Regulations §§ 61.113(a); 91.7(a); 91.319(a); 135.25(a); 135.93; 135.143(a) and (b); and 135.115 that would allow SAAC, a part 135 operator, to enable unmanned aircraft system (UAS) commercial flights of a developmental optionally piloted aircraft (OPA). That UAS, the Textron Grand Caravan 208B, has been modified to enable OPA operations—when the aircraft is flown as if it is unmanned from a ground control station, but is actually under the supervision of an on-board pilot in command, who is able to disconnect the auto-flight system and assume traditional control of the aircraft should an off-nominal situation arise.

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its regulatory process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at www.transportation.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver's medical certification.

The physical qualification standard for drivers regarding hearing found in 49 CFR 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear

at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (April 22, 1970) and 36 FR 12857 (July 3, 1971).

The four individuals listed in this notice have requested renewal of their exemptions from the hearing standard in § 391.41(b)(11), in accordance with FMCSA procedures. Accordingly, FMCSA has evaluated these applications for renewal on their merits and decided to extend each exemption for a renewable 2-year period.

III. Request for Comments

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b), FMCSA will take immediate steps to revoke the exemption of a driver.

IV. Basis for Renewing Exemptions

In accordance with 49 U.S.C. 31136(e) and 31315(b), each of the four applicants has satisfied the renewal conditions for obtaining an exemption from the hearing requirement. The four drivers in this notice remain in good standing with the Agency. In addition, for Commercial Driver's License (CDL) holders, the Commercial Driver's License Information System and the Motor Carrier Management Information System are searched for crash and violation data. For non-CDL holders, the Agency reviews the driving records from the State Driver's Licensing Agency. These factors provide an adequate basis for predicting each driver's ability to continue to safely operate a CMV in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each of these drivers for a period of 2 years is likely to achieve a level of safety equal to that existing without the exemption.

As of September 12, 2021, and in accordance with 49 U.S.C. 31136(e) and

31315(b), the following four individuals have satisfied the renewal conditions for obtaining an exemption from the hearing requirement in the FMCSRs for interstate CMV drivers:

Daniel Alcozer (TX)

Jason Gensler (OH)

Jay Larson (TX)

Eduwin Pineiro (NJ)

The drivers were included in docket number FMCSA–2014–0383, FMCSA–2014–0386, or FMCSA–2018–0135. Their exemptions are applicable as of September 12, 2021 and will expire on September 12, 2023.

V. Conditions and Requirements

The exemptions are extended subject to the following conditions: (1) Each driver must report any crashes or accidents as defined in § 390.5; and (2) report all citations and convictions for disqualifying offenses under 49 CFR 383 and 49 CFR 391 to FMCSA; and (3) each driver prohibited from operating a motorcoach or bus with passengers in interstate commerce. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official. In addition, the exemption does not exempt the individual from meeting the applicable CDL testing requirements. Each exemption will be valid for 2 years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based upon its evaluation of the four exemption applications, FMCSA renews the exemptions of the aforementioned drivers from the hearing requirement in § 391.41(b)(11). In accordance with 49 U.S.C. 31136(e) and 31315(b), each exemption will be valid for two years unless revoked earlier by FMCSA.

Larry W. Minor,

Associate Administrator for Policy.
